

Uncover the Digital Capabilities of your Organization with an **Integrated Learning Management System**

The power of MapleLMS integration with various systems (AMS|CRM|HRMS) for an exceptional user learning experience

Revenue Generation while Saving Costs

- ⇒ Sell courses, on-demand content, subscriptions, certifications, webinars, event registrations, and conferences on the AMS/CRM/HRMS storefront
- ⇒ Offer special discounts and promotions, and complete control over the online shopping experience for users
- ⇒ Automate eCommerce processes, utilize payment gateways, shopping carts, and more using the built-in eCommerce module on MapleLMS
- ⇒ Multi-tenancy architecture provides you the ability to create microsities for sub-licensing your LMS to partners and affiliates

Two-way Data Synchronization

- ⇒ Real-time intelligent synchronization of data and activities between MapleLMS and AMS/CRM/HRMS
- ⇒ SAML 2.0-based Single Sign-On (SSO)
- ⇒ Data on users' status, roles, and their access permissions to courses and functions from AMS/CRM/HRMS is synchronized with MapleLMS
- ⇒ MapleLMS writes back data to AMS/CRM/HRMS about the following:
 - Course Progress
 - Credits Earned
 - Accreditations
 - Certificates Generated
 - Transcripts
 - Financial Transactions

AI-driven Continuing Education for Users

- ⇒ MapleLMS's AI-suggested learning paths encourage users to continue learning and achieve their professional goals
- ⇒ Content recommendation from the storefront based on users' profiles, roles, and credits
- ⇒ Carry forwarding of credits from external learning systems
- ⇒ Credit claims for external learning activities
- ⇒ Maintaining users' learning history accurately while tracking their progress
- ⇒ Accreditations and recertification courses with auto-renewal for users to enrich their profile

Reports, Dashboards, and Analytics

- ⇒ Track users' learning and performance metrics
- ⇒ View reports and dashboards both on MapleLMS and AMS/CRM/HRMS
- ⇒ Customized dashboards can be accessed across the organization
- ⇒ Built-in financial reports to visualize critical data, organizational performance, and monitor user transactions at once
- ⇒ User learning analytics can offer actionable insights through BI
- ⇒ Intuitive and interactive reports and dashboard to measure your organization's overall health
- ⇒ Personalized reports and dashboards for different roles
 - Users
 - Administrators
 - Training Managers
 - Management

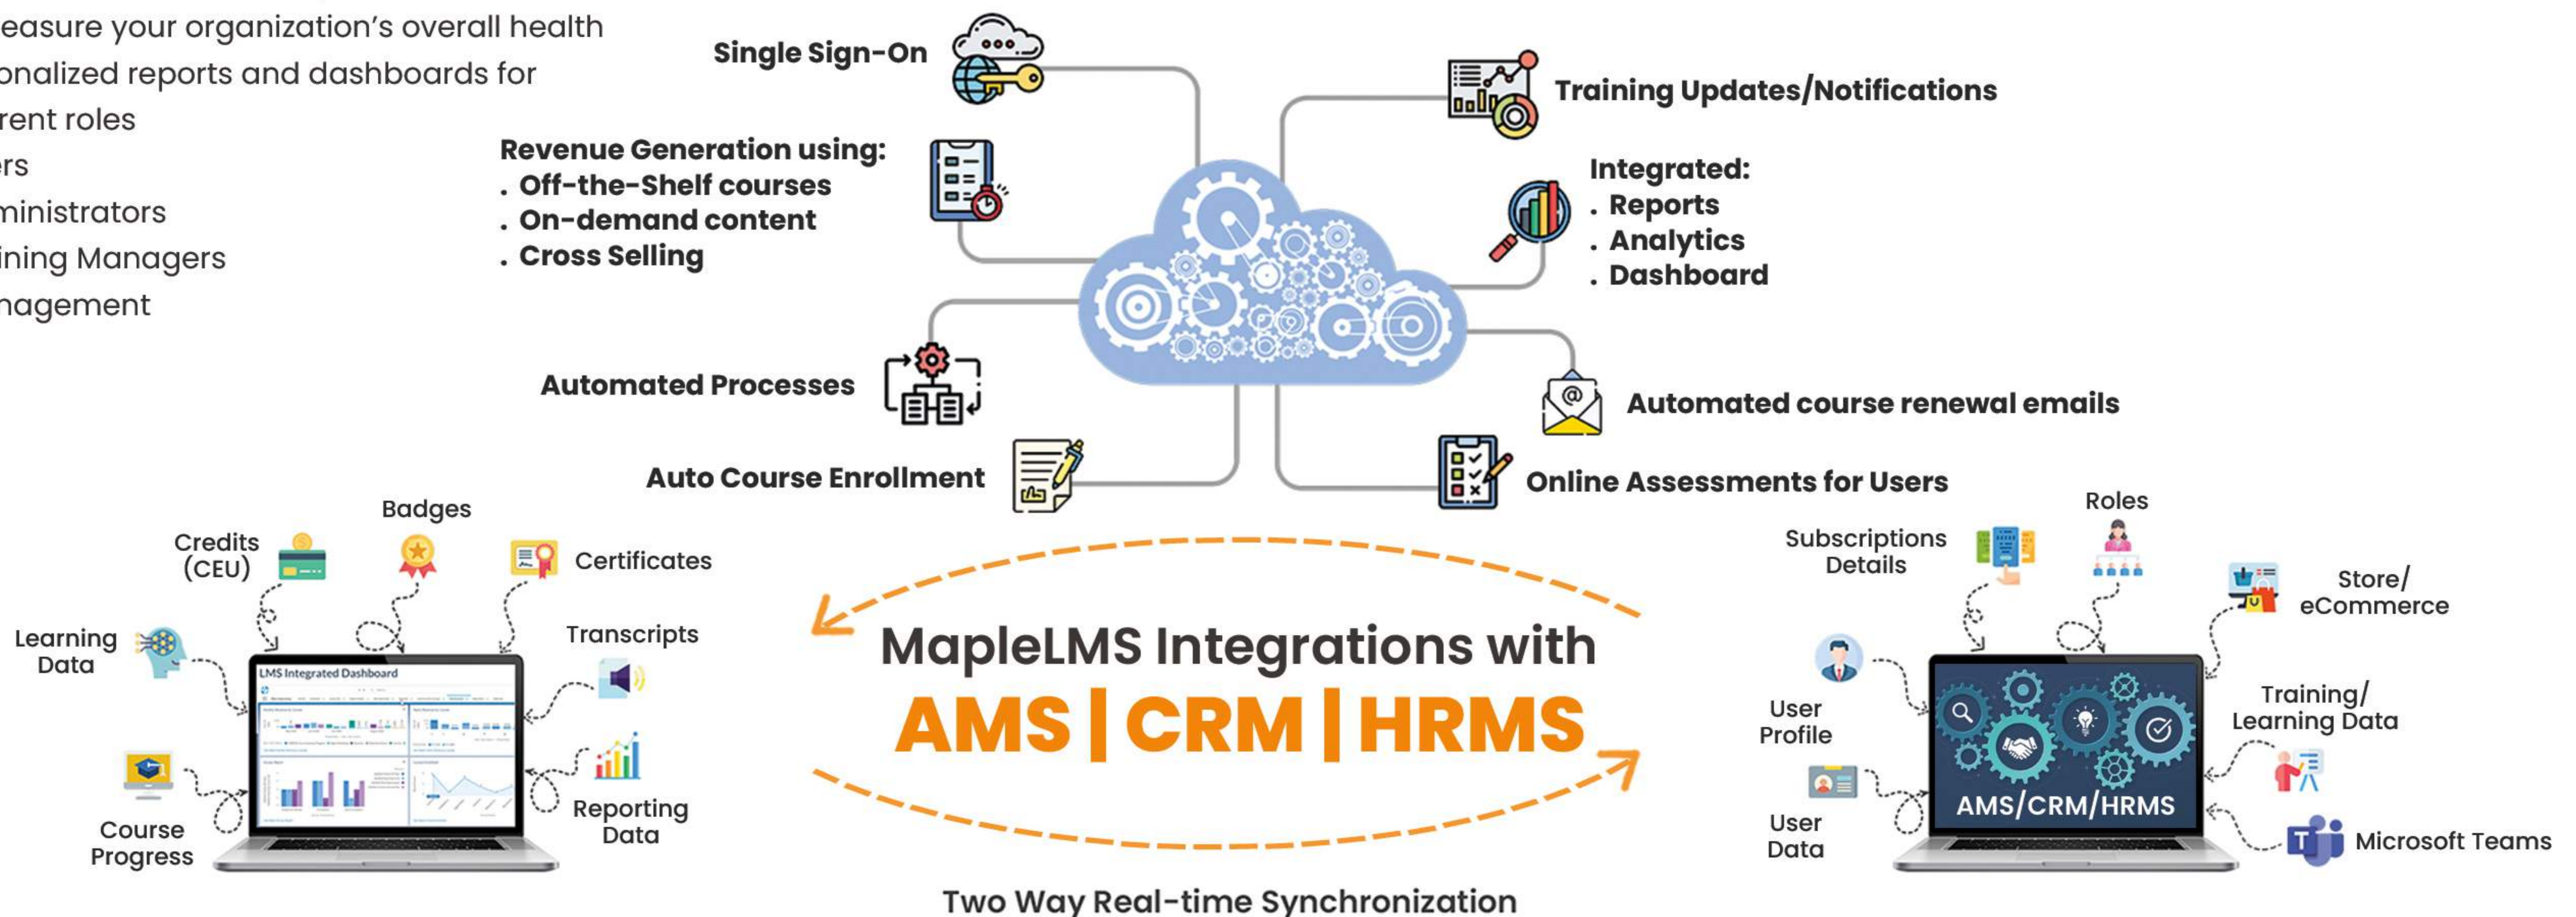

Online Assessment for Users

- ⇒ Ensures user learning assessment is done effectively
- ⇒ Customized certificates are auto-generated upon successful course completion or passing an assessment test
- ⇒ Assessment data is written back to AMS/CRM/HRMS from MapleLMS

White-labeling and Mobile App Branding

- ⇒ The LMS can be white-labeled with the theme and logo to represent your brand
- ⇒ Branded mobile LMS apps can create your distinct brand identity
- ⇒ Certificates can be customized with your own logo and design
- ⇒ Microsites are available to offer personalized learning for users based on Chapters and Geographies
